Oriental—Domestic

Rugs or Carpets are in themselves about the most important single factor in the proper fitting of home appointments. Correct application of this element of home furnishing requires considerable thought, for the wrong color contrast will sometimes destroy almost entirely what would have been a beautiful color arrangement. Here the special service as rendered by Peck & Hills Furniture Co. to dealers and their customers is of particular importance, for you will find immense stocks and a variety that will leave nothing to be desired, as well as the experienced salesman who will gladly assist you in determining the correct scheme as concerns your floor covering requirements.

Furniture of Highest Quality

On our display floors you will find furniture and floor coverings of the best. Furniture dealers everywhere are using this economical and money saving plan sending their customers with a signed Card of Introduction to any of our showrooms located at Boston, New York, Philadelphia, Chicago, Denver, Los Angeles, Oakland, San Francisco, Portland and Seattle. Show rooms open every Saturday until 4 p. m.

Carried in Stock—Ready to Ship

Factory Price Plus Freight Only

REAL co-operation on your part throughout the passing years, reflects itself in the growth of our business, and the development of this catalog, your catalog. Here you have a service you can absolutely rely on. All merchandise quoted as "Carried in Stock" is sold at regular factory prices plus freight only. Other merchandise illustrated is shipped from the factory.

No Loading Charge—No Warehousing Charge—Protection Against Decline

The true value to you of this new Peck & Hills Catalog is not to be found in its use just merely as a guide to your buying stock. It is valuable to you in other ways.

This catalog can *help you sell* more furniture. Extensive as your stock undoubtedly is, unavoidable limitations of space can place you at a disadvantage in serving some customer who may wish a particular item not in your stock. This catalog overcomes that disadvantage by placing before the customer a showing so complete in its variety that satisfaction is assured.

Finishes—Coverings

Utmost truth and accuracy in all descriptions has been the ideal constantly kept in view throughout this catalog. There has of late been a steady progress in the clarification and explanation of descriptive terms used in furniture merchandising. This has culminated in the adoption by the National Council of Furniture Associations of certain standard terms to describe various wood finishes. There is also the "Duco" finish now applied to woods, a popular dull finish. Below is a summary of woods and finishes as adopted.

Walnut

Furniture designated as "solid walnut" has all exposed surfaces of walnut. By exposed surfaces is meant those parts of a piece of furniture which are exposed to view when placed in the generally accepted position for use in the home.

If described simply "walnut" it means that all exposed surfaces are either solid walnut or of walnut applied as ply wood or veneered. "Combination walnut" means all exposed surfaces are either solid, ply wood or veneered walnut in combination with gum, birch or other suitable wood. "Walnut finish" means that the article is of gum, birch or any other suitable wood, stained to resemble walnut.

Walnut is finished in a rich medium tone nut brown Huguenot finish or "French" walnut finish now very popular which is a light tone brown. All walnut finishes are dull. The word "French" merely indicates the color or kind of finish or style.

Mahogany

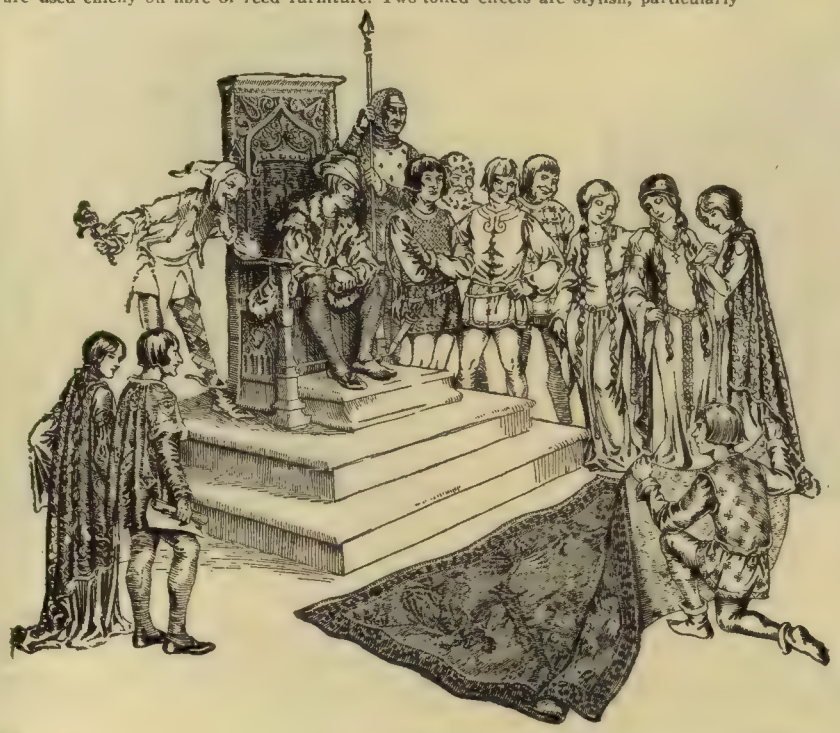
The various terms described in connection with Walnut furniture in the preceding section also apply to mahogany and to all other woods used for furniture. Mahogany in most instances, is finished brown. Office furniture is finished red, but all other patterns are finished in Brown or Antique Mahogany unless otherwise ordered.

Quartered Oak—Plain Oak

Quartered Oak or Solid Oak is supplied with the golden gloss finish, polished, waxed or dull and also fumed or Jacobean. There are other finishes, such as Butler, Flemish, and Early English, but these are not popular and little used. We reserve the right to select the finish ourselves should you fail to specify it. The catalog also includes a number of patterns in Imitation Quartered Oak.

Enamel

Robin Egg Blue, French Gray, White or Ivory Enamel are popular in porch, bedroom or breakfast room furniture. Frosted brown, Ivory and Ebony are are used chiefly on fibre or reed furniture. Two-toned effects are stylish, particularly in bedroom furniture. Many breakfast room sets have floral designs in the panels of the chairs and table surfaces, affording pleasing contrasts. Enamel is particularly handsome when it is high lighted—that is, where the fluting of the legs and the carvings of the pieces are toned and colored or striped in darker shades than the basic or body color.



Bird's-Eye Maple

This handsome wood is a great favorite in bedroom furniture. It re-flects life and blends beautifully into most any color scheme. It is finished polished.

Porch Furniture

All porch furniture, reed or fibre, is finished Baronial Brown unless otherwise ordered. All enamel finishes, such as plain Ivory or Gray or Frosted Brown, Blue or Ebony are furnished at extra cost. Wood porch furniture is ordinarily stained brown fumed, and we will ship it that way unless otherwise ordered.

Polychrome

This comparatively new finish is a revival of historic or ancient color decorations on the Renaissance styles of furniture. The predominating colors are gold, blue, copper, green, canary striping, and red on a dark waxed walnut surface.

Velour

Furnished in silk, silk and wool or silk, cotton and wool, cut, or woven Jacquard. The shades are Blue or Mulberry, Prune, Wine, Moss, Plum and Old Rose and Taupe variations. Blue, Mulberry and Taupe are the popular shades in floral, plain striped and two-toned floral effects. It is also used in combination with tapestry.

Tapestry

Made in many grades such as silk and wool, silk, wool and cotton, or wool and cotton. Wool and Silk are considered the best for wearing and appearance. Frequent color combinations are old rose, blue, tan and dark or light green in floral and figured effects. It is also used in combination with velour. Other soft coverings consist of Brocatelles and Damasks.

Mohair

One of our finest wearing coverings furnished in colors such as Taupe with either Rose, Gold backs or Walnut shade with same combination, as well as purple. All in plain striped or figured effects.

Leather

Furnished in No. 1 or M. B., or No. 2 or D. B. leather. No. 1 is guaranteed. No. 2 is not guaranteed. All leather is furnished in colors of black, Spanish; brown or blue or gray leather for dining chairs. We recommend guaranteed imitation leathers in preference to No. 2 leather.

Imitation Leather

There are a number of imitation leathers that are excellent for wear, actually giving better service than many genuine leathers. They are graded in wearing qualities as follows: Broncho, Muleskin, Chase, Morocco-line and Drill. All except Drill are guaranteed to give you good wear. All imitation leathers are furnished in brown Spanish, black and in some cases blue.

Special Finishes

Such finishes that are not regular, or where a sample or shade is to be matched, are special, and in every case are subject to extra charge and are not returnable under any consideration unless the fault is ours.

All of these designs are easily distinctive, for they possess an individuality that is all their own. The pieces when decorated are truly works of art, superb in their balance of color and pictorial effect. The cabinet work is absolutely perfect; all joints, panels and frame work are carefully mortised and framed in and the finish is of the best. Interior of the cabinet work is finished as fine as the exterior, which, we believe, is well worth your attention and is something to consider when comparing these patterns with other lines.

Below are shown the latest designs in Cedar Chests, which comprise the most extensive assortment offered by any manufacturer. They are strongly built of selected materials. Corners are the Keystone interlocking type; lids are tapered and dustproof; legs and handles are screwed on; and the hardware—substantial locks, patented lid stays and hinges and steel casters—is of the best. These features, together with careful cabinet work, smooth sanded interiors, and an unusually fine finish—tops are hand rubbed—combine to make these chests the finest to be had.

Pullman Living Room Furniture

Unusual beauty, comfort and utility unite to make the Pullman davenport-bed the most important of all the furnishings in the living room.

The Pullman is beautiful in appearance and of authentic design. An observer would never know it contained a bed, which by a simple operation is converted into an "extra bedroom".

All Pullmans may be purchased either with or without the bed fixture and with comfortable chairs to match. Your local furniture dealer will take pride in showing you his extensive line of Pullman day beds, chaise lounges and hand-decorated pieces in various color combinations and in a wide assortment of covers. The Pullman line includes also, desks, consoles, gate leg, tilt top and davenport tables, book troughs, magazine racks and ferneries.

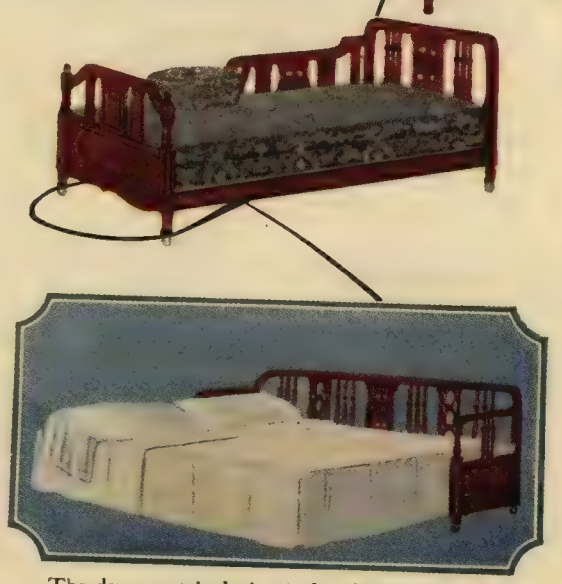
Where the Spirit of Home Is Found

Colorful beauty plus satisfying comfort are the two features that identify the spirit of home with this Pullman-equipped living room.

The several pieces of furniture, each an example of rare design and master craftsmanship, are finished in tasteful two-tone enamel and hand-decorated.

Your local furniture dealer will show you the complete Pullman line of davenports and davenport bed suites, revolving seat day beds and chaise lounges, as well as the equally popular assembly of hand-decorated pieces. As illustrated in the above setting, this decorated group includes desks, consoles, gate leg, tilt top and davenport tables, book troughs, magazine racks and ferneries.



The davenport bed, day bed and chaise lounge illustrated are equipped with the Pullman revolving-seat bed fixture. Immediately above is shown a Pullman ready for night-time duty.

A single operation—a simple turning of the seat—has converted this beautiful piece of daytime furniture into a full size restful bed.

A yielding and restful sleeping surface with a regular bedspring and removable mattress is thus provided. This and the bedding are hidden within the davenport when not used as a bed.

Pullmans with chairs to match may be purchased either with or without the bed feature.

Herati Worsted Wilton Rug

This Chinese Renaissance Design is a reproduction of the design so outstanding in its beauty and distinction that it captured the prize in a great art competition held in Pekin.

Refreshingly simple, it yet shows a subtle blending of the symbols of ancient Chinese art with the new forms of modern design. The beauties of nature found in the field of the rug, the lotus, the crane, fluttering birds and gay butterflies, so modern in their representations are separated by the gay design, symbol of the Great Wall of China, from the old motifs of the border. Those symbols, dear to the follower of Buddha or Confucius have so much fascination for our Western eyes that they find a place in many of the newest designs in house furnishings.
